Mr. Steve Sterquell
President & Chief Accounting Officer
AMERICAN HOUSING FOUNDATION
1800 S. Washington St., Ste 311
Amarillo, Texas 79102

Mr. Steve Sterquell,

I would like to take a few moments of your time to express my appreciation to you, your corporation and entire management team for what you all have done for my wife and me.

We are in our mid-seventies and before Katrina had lived in the same home in New Orleans for over forty years. We are very fortunate in that we did not suffer total loss and destruction as many people did. We did not flood but received wind and rain damage.

We evacuated ahead of Katrina and, as if by "Devine Guidance", ended up in Port Lavaca, Texas where we were introduced by a lady from the United Way to Ms. Lydia Jones, manager of your Sea Greens Apartment Homes.

Lydia put her arms around us and assured us that we had a home with her as long as we needed. She has provided us with a clean, safe, comfortable and stress-free environment from which to recover emotionally, physically and financially. During the first week in January we are scheduled to move into our newly acquired home in Slidell, La.

During our life here with Lydia we have observed that she has a very unique combination of talents, skills and personality traits that make her especially adept at balancing and fulfilling her responsibilities to your tenants and your company. Lydia also gives special attention to the children of this community to make them feel important and wanted. She appears to thrive on her job and her responsibilities.

We consider Lydia to be our very own "Angel".

We will be forever grateful,

Bill Reeves
Hazel Reeves
